¹ These providers have been selected for the MCE Common Network; however, the final MCE Common Network is dependent on these providers meeting all the contracting and credentialing requirements. Additionally, each MCE may decide to contract with additional providers going forward on an as-needed basis, depending on volume, access, geographic, and cultural and/or linguistic need. Providers should contact each MCE directly to determine their respective network expansion processes.

² Each of the regions listed in this document pertain to the DCF regions and towns as outlined within the CSA RFR. As such, these may differ from the MCE regions in which providers offer services. Providers should contact each MCE directly for further clarification.
